CONTENTS

- 1. Introduction..... 1
- 2. Definition and Classification of Myopia..... 3
- 3. Genes may play a role in development of myopia 7
- 4. Animal models of Myopia: What we see controls how the eye grows 10
- 5. Inhibiting accommodation does not prevent myopia..... 12
- 6. Accomodation, Intraocular Pressure fluctation causes progression of Axial Myopia and Glaucoma? Do we have to say don't read and work long hours in 45 cm distances?..... 14
- 7. If We Lower Intraocular Pressure in Myopic Patients without Glaucoma, Can We Occlude Myopia Ascension to High Myopia Progression so the Risk of Glaucoma Decreases? 28
- 8. Intense Outdoor Light Protects Against Myopia 39
- 9. Muscarinic Acetylcholine Receptors, Dopamine and Nitric Oxide are Strongly Implicated in Regulation of Eye Growth..... 47
- 10. We must have a full understanding of optic nerve head anatomy in myopia and glaucoma, including parapapillary zones alpha, beta, gamma and delta, histology and clinical features 62
- 11. Morphological differentiation between glaucomatous optic neuropathy and non-glaucomatous optic nerve damage..... 94
- 12. Diagnostic problems in detection optic nerve damage in a myopic ONH 100
- 13. Inflammatory Profile in Myopia Is a Risk Factor for Glaucoma? 110
- 14. A Brief look to neuroinflammation in glaucoma..... 114
- 15. Contemporary Investigational Therapies to Mitigate Inflammation in Glaucoma 123
- 16. Contribution of Oxidative Stress to the Development of Myopia and Glaucoma 135
- 17. Recent Advances in Genetics of Myopia..... 138
- 18. Environmental Background 143
- 19. How to predict and diagnose glaucoma in myopia 146
- 20. The Relationship between Myopia and Glaucoma 149
- 21. Pathogenic pathways and the role of the lamina cribrosa in myopic glaucoma.... 152
- 22. Clinical evaluation of glaucoma in myopic eyes 153

- 23. Evaluation of the Microvasculature of the ONH is quintessential in myopia and glaucoma..... 163
- 24. Evaluation of the Visual Field..... 165
- 25. Optical Coherence Tomography Angiography in High and Pathologic Myopia.. 170
- 26. Optical Coherence Tomography Angiography Compared With Optical Coherence Tomography for Detection of Early Glaucoma With High Myopia..... 174
- 27. The relationship between optic nerve head deformation and visual field defects in myopic eyes with primary open-angle glaucoma..... 177
- 28. The Association between Myopia and Primary Open Angle Glaucoma 184
- 29. Pigment Dispersion Glaucoma and Myopia 188
- 30. Drug Induced Acute Angle Closure Glaucoma and Myopia 203
- 31. PEX and Myopia..... 205
- 32. Laser Refractive Surgery Induced Glaucoma for Correctin Myopia..... 207
- 33. MIGS in Myopia,high and pigmentary miyopic Glaucoma..... 221
- 34. Trabeculectomy or Deep Sclerectomy? 253
- 35. Optic Nerve Regeneration 267
- 36. Figures 279
